ABSTRACTED-PUB-NO: KR2001111081A

BASIC-ABSTRACT:

NOVELTY - A method of and apparatus for Moxibustion by spraying low salinity distilled water and moxa smoke on the human body entered into a hermetically sealed moxibusting pack to remove toxicity from the body and promote blood circulation and metabolism are provided, which impart both moxibusting and sweating effect

DETAILED DESCRIPTION - Low salinity distilled water is sprayed on the human

body and a moxibusting pack(4) disposed on the upper part of a warmth bed(3),  
whole body except for the head is entered into the moxibusting pack and then  
the pack is subjected to hermetically sealing and the smoke from moxa is blown  
thereinto by a blower. In the moxibusting apparatus, a burner(1) is connected to the moxibusting pack by a smoke pipe(2)
